Price Adjustment Notification for 1 July 2026

Dear Valued Customer,

Thank you for your continued support and the confidence you place in WearCheck. We remain committed to delivering the quality, consistency and service standards you expect from us. In order to sustain these standards, a price adjustment will need to be applied from 1 July 2026.

Although consumer price inflation has remained relatively moderate, our cost base continues to come under pressure in several key areas, as key cost drivers within our industry continue to experience inflation above CPI levels. Recent fuel price increases, including higher levies and ongoing volatility in the oil price, have had a direct impact on our operating and distribution costs. In addition, the cost of petroleum-based products used extensively in our business, including plastic bottles and solvents, has continued to rise, while logistics-related expenses across the supply chain remain elevated. Looking ahead, the outlook for input costs remains uncertain, and further inflationary pressure in critical areas of our business cannot be ruled out.

After careful consideration of current market conditions and internal cost absorption initiatives, we have determined that a **6.5%** price adjustment across our products and services is necessary. This adjustment will enable us to continue providing the technical expertise, product quality and dependable turnaround times our customers rely on, while supporting equipment reliability, predictive maintenance and operational continuity across their operations.

We recognise that cost increases place pressure on our customers as well, and for this reason we have approached this adjustment with care. We will continue to manage our cost base responsibly and absorb increases internally wherever reasonably possible.

Should you wish to discuss the revised pricing or its application to your account, our team will be pleased to assist.

- The revised pricing will take effect from 1 July 2026.
- Our team is available to discuss any account-specific pricing queries you may have.
- We remain committed to service excellence, continuous improvement and delivering long-term value to your business.

We appreciate your continued support and understanding, and we thank you for the opportunity to serve.

Yours sincerely,

Neil Robinson
